

The LVPhil **Music Van** serves three broad functions: educational outreach, senior community support, and community engagement. As a mobile education and outreach program, **Music Van** engages the diverse community within Las Vegas with customizable programs including:

- Hands-on experiences with orchestral instruments for students in grades 2-5
- Exposure to music of various world cultures for students in grades 3-6
- Interactive concerts to stimulate the mental, physical, and social health for older communities and individuals
- Community events featuring opportunities to play different instruments, jam with Philharmonic musicians, and create music with family and friends

Beginning in Fall of 2018, **Music Van** will implement these types of programs in Las Vegas, North Las Vegas, and Henderson. As the program develops over a 3-year period, the **Music Van** will be able to serve more communities through Southern Nevada, including Boulder City, Mesquite, Moapa, Laughlin, and more.

**Music Van** brings basic programs which are customizable depending on the needs of the group engaged in the program. Some accommodations include sensory-friendly programs for special needs individuals, bilingual programming in Spanish and English, and adaptive technology for technology based programs.

The Las Vegas Philharmonic is committed to bringing music to people where they are, engaging with our community in new and different ways. **Music Van** will allow us the platform to reach this goal and constantly reinvent what it means to create and experience music in Southern Nevada.
